Saturday, December 4

Beginning at 2.30 p.m.

Sale of Fancy Work, Aprons, Candles, Home Cooking and Produce.

Also Fish Pond in operation.

Refreshments will be served.

Free will be served from 3.50 p.m.

Wheat Production Estimate

The United States Department of Agriculture, has estimated that the

3,687,308,000 bushels as compared with 2,405,882,000 bushels harvested in 1914. These forty-four countries account for about 90 per cent of the estimated world total excluding Russia and China. The greatest gain is shown in North America, but the European total also shows a gain despite marked reduction in many important producing areas.

NOTICE

In the Estate of Alexander Hugh Sutherland, late of near Michibie, in the Province of Alberta, Farmer, deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above named Alexander Hugh Sutherland, who died on the 27th day of September, A.D. 1937, are required to submit their claims to the Administrator of the Estate, Alexander Hugh Sutherland, Michibie, Alberta, by the 2nd day of January, A.D. 1939, a full statement duly verified of their claims and of any securities held by them, so that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which Notice has been so filed or which have been brought to his notice.

Dated this 19th day of November, A.D. 1937.

Solitor for the Administrator
Drumheller, Alberta.

Thursday, November 18, 1937

Says the Calgary Herald: "It is an odd circumstance that the group who have so self-righteously condemned all critics for their outspokenness should, through two of their own number, have furnished an example of how the law provides the very safeguard they have cried out for. It is a still stranger circumstance that this same safeguard should, in the present case,

the trials the Attorney-General who is Mr. Abernethy, withdrew from prosecution of the charges in question and left it in the hands of a private individual."

THE WORLD OF WHEAT

By H. G. L. STRANGE
Director, Research Dept., Searle Grain Co., Ltd.

again by Mr. A. G. Sibson, former Minister of Agriculture, and the English farmer, who is a well known writer of novels on agricultural subjects.

Mr. Sibson's articles appear in the "Financial Post" of Toronto, and in the "London Evening Telegrams," and are broadcast by radio over Great Britain and then published in the "Farmers' and the British Broadcasting Corporation's" journal.

I for one regard Mr. Sibson's statements as a definite blow to the Canadian farmer, and to the Canadian Government. The statements are simply untrue.

Our farmers are not soil miners—they are the best of the land—they are good businessmen.

Careful investigations made into rain fall and yields by the Research Department of the Government of Canada have indicated clearly that whenever our farmers enjoy good rains, and then our Soil Conservation Service fertilize, and yield up bountiful crops.

Peace River Grading Complaints

High Allen, representing Peace River wheat producers before the Tarboro

wheat from that district be graded on a quality basis instead of on physical appearance. Wheat from the Peace River region this year is said to be of extra good quality in so far as protein content is concerned, and actually yields a greater volume and better quality of flour than other wheats in western Canada.

Armistice Service

The annual armistice service was held in the United Church on Nov. 11th. The weather being cold there was not as large an attendance as has been seen formerly, visitors from the country being very few.

Rev John Sorechan, who conducted the service, had arranged a very fine and appropriate setting for the solemn remembrance.

Two of the three hymns sung were Kipling's "Last we Forget," and "O, Valiant Hearts," while

them, "O God of love, O King of Peace." The scripture reading and the sermon were on an equally high plane, the theme of the latter being "Learning from our heroic dead."

At the close of proceedings in the church, a procession was formed for the ceremony at the cenotaph, where a short service was held and a

Dominion Bureau of Statistics

(Issued October 25th, 1937)

Registrations of Births, Deaths and Marriages, September, 1937

The Dominion Bureau of Statistics issues today the number of registrations of births, deaths and marriages during the month of September, 1937, in 87 cities and towns of Canada having populations of 10,000 and over.

Births registered in these cities and

corresponding nine months of last year. This comparison shows increases of one-half per cent. in births, 4½ per cent. in deaths and 9 per cent. in marriages.

Trees Available for Farmers

With reference to the very important function of tree planting in Alberta, it was learned in an interview given recently by the Honorable N. E. Tanner, Minister of Lands and Mines, that certain species of trees are available to farmers for transplanting in existing bluffs and the extension of windbreaks. These trees may be secured on application to the Forestry Division of the Department.

bluffs are not as durable as desired and the introduction of exotic species will give the desired longer life to these bluffs. Necessary protection will be given also to the existing trees in providing shade, thus ensuring a healthy and more permanent growth.

The Minister stated that there is available for planting in the spring of 1938 a large quantity of lodgepole pine, green ash, and northern fir and a limited

End Coffee Burning in Brazil

In June, 1981, the Brazilian government inaugurated a policy of coffee de-stocking in order to remedy the coffee supply. On November 26 of this year the policy was abandoned because of the over-production from other coffee producing countries in marketing. It is calculated that in the seven intervening years 50 million bags of coffee have been dumped into the world trade. This works out at about two years world trade in that commodity. The coffee supply is now supplying 79 per cent of the coffee required in world trade, but this has been steadily dwindling, until the total reached 50 per cent.

Auto Firm Has Faith

It was announced recently that the Chrysler Corporation of Canada will

Windsor, Ont., plant. Company officials stated that the decision to make the capital outlay at this time is based upon definitely improved sales prospects and an improved general business outlook in Canada. Optimism in the automobile manufacturing industry, it was stated, has been inspired by Canada's increased income last year and a likelihood of a

HEALTH

A HEALTH SERVICE OF
THE CANADIAN MEDICAL
ASSOCIATION AND LIFE

HOILS

The unbroken healthy skin is an effective barrier to the entrance, into the body, of the numerous germs with which the skin is brought into contact.

These are germs, commonly called disease germs, which cause certain specific diseases, such as diphtheria and typhoid fever. There are other germs

The skin may be broken in many ways, such as when it is cut, scratched or bruised. The skin is an important part of the body and, as has already been mentioned, if one part of the body is upset, other parts are apt to suffer. The healthy condition of the skin is lost and its power to resist the action of

As a result of the occurrence of one or more of the above conditions, the normal resistance of the skin is lost or decreased; then, the germs present on the skin are enabled to gain a foothold. The result of their activity is inflammation—redness, swelling, pain and the production of pus.

Boils are infectious in the sense that they are caused by living germs. In the treatment of boils, this fact must be

The occurrence of boils in most cases means that the sufferer has not been giving the reasonable care to his body that is required if a condition of health is to be maintained. To have a healthy skin, it is necessary to keep the whole body in a state of health by living a hygienic life.

Questions concerning health, addressed to the Canadian Medical Association, 1584 College Street, Toronto, will be answered personally by letter.

"I believe that most happy persons are those who take serious things lightly and fight things seriously."—Elsa Maxwell.

An Acknowledgment

The Company's elevators continue to receive a gratifying measure of patronage, not only from shareholders, but also from thousands of other farmer customers. It is such support which in the past has provided the basis for the success of the Company and which it must be the continued endeavor of the Company to merit.

In these words, in the last annual report, the Directors of the United Grain Growers Limited, acknowledged the loyal support of the Company's
